# Fielders New Stadium

The Lake County stadium project is managed and developed by the City of Zion, and will open with the inaugural game in June, 2010. The stadium will feature three distinguishing group party decks. The new ballpark will offer several other hospitality areas including a unique stadium club, banquet facility, and permanent concert stage.

Whether you're looking for a gathering spot for family and friends or a casual atmosphere to entertain business clients, professional baseball with the Fielders is a great way to enjoy the company of your group!

"I've seen many opportunities over the years to be involved in baseball projects, but this one is really special. The location, the people involved, and the chance to offer families in Zion and the surrounding communities a quaint and affordable setting for minor league baseball means everything."
