

Moffitt Field Maintenance Guidelines:

Leave the field in game ready condition.

Please rake toward the bases and not into the grass.

Be sure to fill all holes and depressions at each base, home plate, and the mound.
HFM will provide rakes.

Rake all infield material that is displaced into the grass back into the cutout with a leaf rake.

Cleats are highly recommended. HF-M Baseball discourages the use of sneakers or turf shoes on the field.

No soft toss against fence.

Batting practice on the field is discouraged. Please use the batting cage.

If batting practice is held on the field; use the pitching platform that is available or pitch from the mound. Please do not throw BP directly from the grass.

Please hit fungos from the dirt and not from the grass.

Pick up trash from player bench and spectator areas
