

Carrie Wood

Dear PYHA Association,

My name is Carrie Wood and I have one son who just started playing hockey with Princeton this year. His name is Jaeger Wood and he is five years old. He is on the orange C mite team this year. We have not had much experience with the Hockey Association but I am quickly learning and I would like to be involved with making this a great program not only for my son but for all the kids and parents involved. I would like to accomplish this by being on the board and helping where I am needed. I have participated on many boards which has strengthened my ability to communicate, organize, and complete task orientated agendas. I am hoping that you please consider me as a possible board member so that I can become a part of the team that works so hard to make this Hockey program what it is.

Thank You for your consideration

Carrie A. Wood
