

## **Farmington Travel Basketball Association**

### **Team Pages and Player Identification Guidelines**

- Admin rights to team page on the FYBA website
  - Head Coach had admin rights. Any team parent who wants admin rights must first get approval from the Head Coach, who then will communicate that to the FYBA Communications Director.
- Guidelines for the team roster pages on the FYBA website
  - Since first and last names are listed on the team roster page, jersey numbers are not allowed to be posted next to the names
  - Photos of the players' faces or a photo showing their jersey number cannot be next to their names on the team roster page
- Photo guidelines for the team pages on the FYBA website
  - Action photos of the players in their jerseys are acceptable on the team pages, but the jersey number cannot be associated with the player name on the roster page.
  - No names in any photo captions
  - All parents must agree to photos of their child being posted on the team page even if the child is not identified
- Photo guidelines for newspapers
  - Team photos submitted to the local newspapers should only identify the player by first and last name if the parents are okay with that. Another option is to not list the names in order of the picture, (left to right for example) but to list them randomly. Individual photos in a newspaper cannot identify a player unless the parent(s) have approved.
