- d. Written essay from student, 300-500 words, relevant to the essay topic (**CHOOSE ONE ESSAY PROMPT**)

PROMPT 1: Individual and team sports are built around preparation and practice. The very concept of regular practice is often to create a competitive advantage over your opponent. Often there can be a fine line between competitive advantage and breaking the rules. Considering recent events, please describe how you define that line and the difference between the two.

PROMPT 2: The debate about paying college athletes has gone on for years. On one side there's the belief that a college student-athlete should be paid because it's often the students' names and images on products and in advertising, so they should receive some of the profits. On the other side the argument is the student-athletes receive a scholarship as payment for their talents. On what side of the debate do you land on and why?

3. SELECTION

- a. Selection committee will consist of a minimum of five individuals selected by the Executive Board. Seven Lakes principal and Seven Lakes Campus Coordinator may participate but will be non-voting members of this committee. Parents on the committee cannot have students considered for a scholarship.
