

Adding iCal Feed to an iPhone

- Tap on the "Settings" icon from the iPhone's home screen.
- Tap on "Mail, Contacts, Calendars" from the list of device settings.
- Tap the "Add Account" button and select "Other" in the list of account types.
- Choose the "Add Subscribed Calendar" option at the bottom of the screen.
- Enter the full address or file path of the ICS calendar you want to add in the "Server" field. Make sure to include the ".ics" extension at the end of the address or path. Tap the "Next" button.
- Enter a custom description for the ICS calendar and tap "Next" once more to finish adding it to your iPhone.
