Rule Mod approved by Board on 3/28/10:

Pinch Runner when Batting Everyone

This rule pertains to games where teams are 'batting everyone':

Should a baserunner become injured, a pinch runner may be used. This pinch runner will be the player that made the "last batted out". The "last batted out" is defined as being put out as the batter/runner.

If no "batted out" has been made, the pinch runner will be the last player in the batting order.

Any injured player that has been removed from the game for a pinch runner may return to the game if/when ready.
