

The City of Hastings is excited to offer you and your teams a faster and more convenient way to stay informed of city field closings this year. Sign up for our new citizen alert system, Nixle, and receive a text message letting you know when the fields are closed due to weather or other unforeseen circumstances.

Text the keyword CITYFIELDS to 888777 to be automatically enrolled in the system.

Participants can cancel their participation at any time by replying STOP to a message. The system is free of charge, but message and data rates may apply per your cell phone provider.

To manage your preferences or sign up to receive other City of Hastings messaging, go to www.Nixle.com and create a free account.

*We will still keep the weather line running for those who prefer to call in.
