

Winter Mite Supplemental League

We are proud to offer a supplemental winter mite league to give the older mites an opportunity to learn the game of hockey on a full sheet of ice. This is not intended to replace your winter association program, it is a an add-on feature for teams to complement their existing winter mite program.

As players move to full ice games in Squirt and AAA programs, this league will offer players experience with positioning, line changes, offsides and much more. Plus, it will be a lot of fun for the kids to play - They all love playing games!
