

***Greeley Youth Hockey Association and Orthopaedic & Spine Center of the Rockies (OCR)
Partner to Offer Baseline Neurocognitive Testing for Concussion Management***

OCR will offer baseline neurocognitive test sessions using ImPACT™ (Immediate Post-Concussion Assessment and Cognitive Testing). Baseline neurocognitive testing is one tool used in concussion evaluation and management. Results from the baseline test can be used and compared to post-injury tests in the event an athlete suffers a concussion. ImPACT™ baseline testing takes approximately 30 minutes to administer.

Details: Ages 12 and older. \$25 per athlete.

OCR Fort Collins Office:

Monday – Wednesday, Friday a.m.
2500 E. Prospect Rd.
970-493-0112, to schedule

Baseline testing at OCR is supervised by Dr. Alissa Wicklund, a board certified neuropsychologist and Credentialed ImPACT Consultant™(CIC). Each CIC is recognized as a highly trained expert in the use of ImPACT products and concussion management. ImPACT™ is the most-widely used and scientifically validated computerized concussion evaluation system. ImPACT™ provides trained clinicians with neurocognitive assessment tools and services that have been medically accepted as state-of-the-art best practices --- as part of determining safe return to play/learn decisions.

ImPACT™ is in use by the vast majority of teams in the MLS, MLB, NHL and NFL. It is also mandated for use in NASCAR, WWE and select US Olympic sports. More than 7,400+ high schools, 1,000+ colleges and universities, 900+ clinical centers, 475+ Credentialed ImPACT Consultants, 200+ professional teams and select military units use ImPACT.

About OCR: Our team of sports medicine professionals has taken care of thousands of competitive and recreational athletes from the Rocky Mountain region, across the country and even around the world. We offer highly specialized care for concussion, knee, hand, shoulder and often complex injuries. OCR's Regional Concussion Center offers a comprehensive team of multi-disciplinary medical providers for diagnosis, management and treatment of concussion.
