

GREATER TOLEDO INLINE HOCKEY LEAGUE

OTTAWA PARK ICE RINK
2200 WEST BANCROFT STREET
TOLEDO, OH 43606

THREE DIVISIONS

The Greater Toledo Inline Hockey League reserves the right to place any team in the proper division.

Gold – Team is comprised primarily of Advanced to Elite level players. These players primarily come from high school programs, juniors, college, or professional teams. At this level there is an understanding of the rules, team concepts and are comfortable in a fast paced game. Players are skilled at stick handling, passing, puck control and shooting.

Silver - Team is comprised primarily of experienced level players. This player may have played for a lower leveled high school program or even have played some organized youth hockey up to the Bantam level. At this level, players are comfortable skating forward and can now skate backwards fairly comfortably. They are starting to understand positioning, team concepts, can skate backwards, but are still working on stick handling, passing and crossovers.

Bronze – Team is comprised primarily of less experienced players to no experience players. This player may have played some organized youth hockey up to the bantam house level but have not had any high school hockey experience or greater. These players are usually still developing fundamental skills such as skating, stick handling and shooting. They are also still learning the ins and outs of the game including positioning, rules and team concepts.

Proper Division Placement

If you are a new player to the GTIHL, you will be given a preliminary ranking based on your past experience. We do understand that experience does not necessarily translate to skill, especially due to where we learned the game and as player's age. A player may not play down a division from the results of the skill calculator without the written approval of the GTIHL Competition Committee & Board. Please see page 2 for the division placement calculator.

Note:

Please respect others and play in appropriate pickup games/leagues/tournaments. Many events in the GTIHL are open to a range of skill levels which is great for lower level players to learn the game. That being said, we encourage more advance players to encourage these players and include them in the game.

Players incorrectly ranked run the risk of being removed from their current division. No refunds will be granted. The GTIHL Board reserves the right to make changes as necessary and all rules are subject to adjustment. The GTIHL Board has the final call on disputed rankings for new players.
