

Dear NORCO Families,

I am proud and excited to announce that NORCO Soccer Club has entered into a partnership with a local charity called Kids 4 Kids. The mission of Kids 4 Kids is to raise money to support children fighting cancer and their families. In addition, they host various events to create special experiences for the kids and their families as well. The sport of soccer acts as the primary vehicle for supporting these efforts through the hosting of two 3v3 tournaments each year.

I feel that this fits nicely with our mission as a soccer club and will provide our players and coaches with the opportunity to give back to their community. This can be a great source of pride for our players and aid in their personal development to go along with their athletic development.

Our club's involvement at this time will be twofold:

1. NORCO will be a host club for the upcoming Futbol Frenzy 3v3 tournament in January (1/7 & 1/8). We encourage all teams to participate in this tournament as it will help improve your team's skills while supporting a good cause.
2. NORCO will partner with Kids 4 Kids to adopt families who are fighting childhood cancer this Christmas. This will be optional and on a team by team basis but can have a huge impact.

Additional details on both of these programs will be passed along to coaches and team managers in the near future. I just wanted to take a moment to briefly introduce you to this new partnership that I feel will be a win-win for both organizations.

Steve Heitert
