

Fairmont Youth Hockey Association
Requirements to Move a Player to an older level team

In an effort to be impartial we have determined the following as necessary steps and required milestones when a parent requests to have their child moved up in the level of play (i.e. Squirts to PeeWee, etc.). This form needs to be filled out and handed into the Coaching Committee or the head coach of the team that would receive the player in question.

If the following milestones are met and the coaches agree to make the move, the decision is final!

General Rules and Requirements

- 1.) Parents must request the move
- 2.) Age cutoffs are as follows; Squirts – 9 yrs by July 1st, PeeWee – 11 yrs by July 1st, Bantam – 13 yrs by July 1st.
- 3.) Both Head Coaches must sign off on the move and agree that its in the best interest to all involved.

Procedures

- 1.) Parent or guardian of the athlete requests to move child up to next level of play.
- 2.) Both Head Coaches review the numbers (players above & at the current level of play) to determine if it makes sense to continue process
- 3.) If yes and they agree to allow the athlete to test against the HEP required drills to see if they are at the level of play being requested
- 4.) If player is at or above the average HEP (Hockey Education Program) involving drills that test for level of play, player will be allowed to move up
- 5.) Each situation is reviewed on a case by case basis.

Players Name _____ Parents Name _____
Address _____ City _____ State _____
Phone _____ Work/Cell Phone _____
Birth date of Player _____ Level Requested to Move to: _____

Association Use

Date Request Received _____ By: _____
