2017 SUMMER CLINIC

SHOOTING & STICKHANDLING

Shooting will focus on wrist-shots, snap-shots, slap-shots, and backhands. Stickhandling will focus on proper technique, standard moves, advanced moves, moves to protect the puck, and moves to get a shot off. We will be teaching, demonstrating, and drilling the proper mechanics and technique for each of these concepts. All players will get continued instruction and repetition, and will shoot thousands of pucks throughout this Clinic!

ANGLING, BODY CONTACT & BATTLE DRILLS

Angling & Body Contact are being introduced as early as the Mite Level. Players need to learn the proper techniques of this aspect of the game! Including body position, angling, and contact. We will cover open ice contact as well as along the boards. The Battle Drills will focus on skills and techniques that will allow all players to be more effective in their puck battles.

POWERSKATING, EDGEWORK, TUNE-UP

Proper technique, edge work, balance, coordination, & conditioning will be the main focus for this part of the program.

COACHING

All coaches specialize in a particular element of the game and have over 75 years of combined experience in coaching and playing at the highest levels of hockey.

The coaching staff will make sure drills are done at a high pace and tempo to reflect game speed.

The coaching staff will include all of the Illinois Selects Elite/AAA coaching Staff with a minimum of 4 coaches on the ice at all times, focusing on each specific Skill.

TRAIN LIKE A CHAMPION!
