

Policy: 04032017.1AD

Policy Name: Sports Donations & Capital Expenses For Field / Facility Improvements

No donations of cash, field or facility improvement may be authorized to any third party or performed to benefit a 3rd party facility, without approval in writing from the Executive Board of the MRC.

A written plan provided to the MRC executive board outlining in detail the following should be provided by the Sports Commissioner:

how the funds will be raised -

timing for raising of the funds -

timing for disbursement funds -

why the sport is donating or making the improvements -

All MRC Sports donations and capital expenses for field improvements must be provided at a minimum 60 days in advance for the MRC Executive Board to review and must be included on the sports budget or a new budget submitted.

No promises of future payments to any third parties can be made by any MRC commissioners or sports board members. Long term payments (longer than just one year) constitute a debt on the sports part and as such as similar to a line of credit and must follow the MRC line of credit use policies. These long term arrangements require a contract with the association / entity that the funds are promised to and must outline in detail what the MRC receives in return for such payments.

Exceptions: Scholarships for graduating Seniors do not fall under this policy.

Note: All capital expenses for field / facility improvements require multiple bids in writing provided to the MRC along with the plan.
