

**All GSYHA Coaches must complete the following registrations and certifications to participate during the Grizzly Hockey 2017-2018 Season:**

- 1: [USA Hockey Registration](#) – This is an annual registration with a \$40 USA Hockey registration fee. You will receive an electronic copy of your registration with a current USA Hockey confirmation number.
- 2: [USA Hockey Coaching Education Program Certification](#) - USAH CEP Clinics will be offered throughout the state of Colorado. Your CEP coaching certification **must be completed by December 31, 2017 to remain eligible to coach**. Failure to do so will result in removal from the team roster, and coaching privileges will be lost.
- 3: [CAHA Background Check](#) – This is an annual registration with no cost, and serves as your background check. Generally this takes about 48 hours to process.
- 4: [USA Hockey Online Age Specific Modules](#) – These modules are now available all year, and are only necessary once per age accredited (lifetime accreditation). The module **must be completed BEFORE you can be added to your team's official USA Hockey roster**.
- 5: [USA Hockey SafeSport Certification](#) – The SafeSport Training and Refresher Training are valid for **2 seasons**. If you have never completed SafeSport training, you will need to complete the 90 minute SafeSport Training Course. If the last time you took this training course was during the 2015-2016 season, you will need to complete the SafeSport Refresher course for this 17-18 season.
- 6: [Online Concussion Certification](#) – This is an annual certification with no cost. You will receive a certificate through email, which you will need to give to your Director.
