

HUNTINGTON BEACH HIGH SCHOOL

AQUATICS BOOSTER CLUB

Dear Friends of the Huntington Beach High School Aquatics Program:

The 2019-2020 school year is here!

Last year we had an outstanding season for both Boys and Girls Water Polo and Swim and we have very high hopes for this year as well.

The **HBHS Aquatics** program is the largest co-ed sport on campus. Unfortunately, our school's budget is vastly inadequate to ensure the highest caliber program for our student-athletes. Funds raised by the HBHS Aquatics Booster Club are used directly to pay for items such as equipment, timing systems, coach's salaries, referee and tournament fees, as well as keeping program participation fees low for our student-athletes.

Each season, we introduce the banner program. This program is a great way to raise the needed funds while expressing your support and pride for our teams. The banners will hang in the pool area for a period of one year, and they can be purchased by businesses, parents, grandparents, alumni or anyone who wants to show their spirit for HBHS Aquatics.

Banner sponsorship opportunities;

Middle Placement on the sponsorship wall. \$500.00

HBHS Aquatic Boosters Club is a registered 501c charity program

Banner sample

Because the banners hang at the pool deck for 365 days from date of purchase, sponsors will receive maximum exposure to aquatics events, city-sponsored programs and Nationally top ranked Club Teams that use our pool. Every Summer the HBHS Aquatic Facility is one of the host venues for USA Water Polo Junior Olympics, featuring club teams from across the US and more than 5,000 student athletes.

The continued success of our program relies on involvement and contributions from organizations and individuals like you. Without this support, we would not be able to provide a quality aquatics program like they currently receive here at HBHS.

We thank you for your support!

Jason Pyle, President

Please Email Completed Forms and Artwork to: Liane Donati at lianed28@gmail.com
Make Checks Payable to: HBHS ABC

Banner File Preparation:

In order to ensure your files are print-ready, we recommend that you upload them in PDF format. When you generate a print-ready PDF, your computer will use the settings in Adobe Acrobat Distiller or any other PDF generating programs you may use. Please make sure that these are set properly before generating your PDF file.

If you are uploading PDF files created in Photoshop, please be sure all layers are flattened.

Other accepted file types: .AI, .JPG, .EPS and .TIF. PDF is the preferred format.

Check your file to make sure it meets our file creation guidelines. This will help speed up the production of your project and give your printed piece the best results:

Use a minimum resolution of 150 dpi at 100% size for image files.

Artwork should have 1/8" (0.125") bleed extending past the trim line. This is to prevent minor cutting variations from leaving unintended results at the trim edge.

Safe Area (**SAFE AREA**) is the 1 1/4" (1.25") area inside the trim line. Do not put critical information or images within the Safe Area.

If you want printed borders, they must be placed a minimum of 1/8" (0.125") inside the trim line and include bleed. This is to prevent minor cutting variations from leaving unintended results at the trim edge.
