- V. Financial Report since last meeting
 1. Opened a safe deposit box and all the equipment/volunteer checks & cash are at Huntington Bank.
 2. Looked into a rewards based credit card through PNC and discovered that with non-profits they need to have a deposit relationship with the bank to be eligible for credit or credit cards. Huntington does not have business credit cards yet, they are going to be available in November. I will work with them then on getting these in place.
 3. I received a scholarship check back from Alma for Brandon Buchler and after contacting the parent to let them know I would be resending it, I was informed he was no longer attending and we should submit this to Lansing Community College.
 4. I received notice from the State of Michigan that the year end sales tax for 2016 was delinquent and we were being charged interest on top of the amount owed. After checking into this, it turned out that our entity hadn't filed year end sales tax for 2015 or 2016. I worked with them and filed both 15 and 16 year end electronically and cleared up any delinquent charges that were pending. While trying to figure this out I tried to contact the accountant at H & R Block and was told he is unreachable and he doesn't work or take calls when it's not tax season. I find this unacceptable so I'll be using a different accounting firm this year.
