

# Sports Engine Tutorial

1. Download the SE App from the App Store by searching for **"Sports Engine"**

2. Add the Aztec Specific Team as a favorite. You may already have a team from last year or from Fall Ball. Click the magnifying glass and enter in the 7-digit code for your specific team. Spring Season team codes are listed below:

- 8U (Team Code:1696100)**
- 10U (Team Code:1659542)**
- 12U A (Team Code:1659540)**
- 12U B (Team Code: 2462252)**
- 14U (Team Code: 1659537)**
- JV (Team Code: 1659111)**
- Varsity (Team Code:1659141)**

3. Once you have added your specific team as a favorite, you will see it in the list of your favorites. If you have multiple players on different teams, you can add additional teams the same way. **This is an important step, because team communications will be sent through SE app and if you have not selected your specific team, you will not get these updates. Practices and games schedules will also be managed by teams. If you haven't selected a team, you will not be able to see your specific schedule and may miss practice and game updates.**
