

Here is the best draft of the schedule I can come up with. Its not perfect, but it deals with nearly everything on the sheet. Below is a list of everything on the sheet we accomodated. I don't think we have any games that need to be rescheduled on day 1. The A and B Schedule are perfectly balanced so everyone has the same number of home and Away games. The C team schedule is a little lopsided due to not playing everyone. Some teams got shorted a home game because 3 teams had to follow b to c and Kiels only request was to play all teams at home or all on the road. We made that happen.

### **Here are the items we accomodated**

#### **Kiel**

All teams are home or away every week to minimize the number of days they have to find volunteers

No Home games Week of 5/6

C1 Follows A/B and C2 plays home when the rest are home and away when the rest are away to avoid orpha
