

Covid Protocol

- If a player tests positive for Covid inform the coach. Then the coach tells our Covid Coordinator. Then the player needs to be quarantined for 10 days.
- If a positive Covid test has been confirmed on your team, the team will be notified by either the Coach or our Covid Coordinator. If a player tests positive for Covid we do not intend to cancel the team's practice or games. Attendance for players without symptoms will be at each family's discretion.
- If your child has Covid symptoms do not come to practice.
