

AAU Page Freezing Issues

Hi,

If you're experiencing issues with the AAU page freezing, it might be due to one of the following reasons:

1. Typos in AAU Membership Number: Please double-check that you have entered the membership number correctly.
2. Copy/Paste Errors: When copying and pasting the AAU number from an email or website, extra spaces may be included. It's best to type the number manually to avoid this issue.
3. Zip Code Mismatch: Make sure the zip code you used for your AAU membership matches the zip code you are entering during registration.
4. Outdated AAU Membership: Verify that your AAU membership is current. You can check your current membership status using the following link:

https://find.aausports.org/ArticalView/ArtMID/10914/ArticleID/398?sSport_cd=ZZ&district=NO

If you continue to have issues after reviewing this, please email me @ michael.wvba@gmail.com , and I'd be happy to assist you further.

Thanks,

Michael
