

Friends and Families of the Elkhorn Soccer Club:

ESC is dedicated to building a culture of excellence that aims to develop our children as athletes and people, both on and off the field. As we look to grow in that mission and serve the community going forward, we recognize the need to be a robust organization with state-of-the-art facilities so all children can enjoy participating in a variety of athletic activities.

Therefore, we are excited to announce Elkhorn Soccer Club is merging with the Elkhorn Athletic Association. Both organizations have similar missions, visions, and values that align to provide premier youth sports opportunities for kids throughout the greater Omaha area. The merger will combine knowledgeable, experienced, and passionate people who can provide our children with excellent learning environments that develop them to their full potential. Many of you have children who already play for EAA, so this will allow you to enjoy “one-stop shopping” where your kids can easily participate in multiple sports under a single organization.

In addition, this merger includes plans to develop a multi-sport outdoor community complex to address the lack of field space that both ESC and EAA have faced. The state-of-the-art complex will encompass more than 140 acres near 264<sup>th</sup> and Ida Streets off Highway 275. It will be a signature destination facility for outdoor youth athletics and community recreation that will include turf, lighted soccer, football, baseball, and softball fields that we hope to open within two years. It will be easier for families who have children playing multiple sports to only have one location to go to for practices, games, etc. It will also serve as a regional destination for youth sports so families do not have to travel to other cities in order to enjoy the experience this type of facility offers.

We know you may have questions, and we will keep you informed as we move forward. Please click on the link below for frequently asked questions and more detailed information. We appreciate your continued support during this exciting time!

All the best,

Kevin Almquist  
Board President

Rob Herringer  
Executive Director
