

Preparing for When Someone Gets Sick

Youth sports organizations may consider implementing several strategies to prepare for when someone gets sick.

- **Advise Sick Individuals of Home Isolation Criteria**
 - Sick coaches, staff members, umpires/officials, or players should not return until they have met CDC's [criteria to discontinue home isolation](#).
- **Isolate and Transport Those Who are Sick**
 - Make sure that coaches, staff, officials, players, and families know that sick individuals should not attend the youth sports activity, and that they should notify youth sports officials (e.g., the COVID-19 point of contact) if they (staff) or their child (families) become sick with COVID-19 [symptoms](#), test positive for COVID-19, or have been [exposed](#) to someone with COVID-19 symptoms or a confirmed or suspected case.
 - Immediately separate coaches, staff, officials, and players with COVID-19 [symptoms](#) (i.e., fever, cough, shortness of breath) at any youth sports activity. Individuals who are sick should go home or to a healthcare facility, depending on how severe their symptoms are, and follow [CDC guidance for caring for oneself and others](#) who are sick. Individuals who have had [close contact](#) with a person who has [symptoms](#) should be separated and sent home as well, and follow [CDC guidance for community-related exposure](#) (see “Notify Health Officials and Close Contacts” below). If symptoms develop, individuals and families should follow [CDC guidance for caring for oneself and others](#) who are sick.
 - Establish procedures for safely transporting anyone who is sick to their home or to a healthcare facility. If you are calling an ambulance or bringing someone to the hospital, try to call first to alert them that the person may have COVID-19.
- **Clean and Disinfect**
 - Close off areas used by a sick person and do not use these areas until after [cleaning and disinfecting](#) them (for outdoor areas, this includes surfaces or shared objects in the area, if applicable).
 - Wait at least 24 hours before cleaning and disinfecting. If 24 hours is not feasible, wait as long as possible. Ensure [safe and correct use](#) and storage of [cleaningexternal icon](#) and disinfection products, including storing them securely away from children.
- **Notify Health Officials and Close Contacts**
 - In accordance with state and local privacy and confidentiality laws and regulations, youth sports organizations should notify [local health officials](#), youth sports program staff, umpires/officials, and families immediately of any case of COVID-19 while maintaining confidentiality in accordance with the [Americans with Disabilities Act \(ADA\)external icon](#) and other applicable laws and regulations.
 - Work with [local health officials](#) to develop a reporting system (e.g., letter) youth sports organizations can use to notify health officials and close contacts of cases of COVID-19.
 - Advise those who have had [close contact](#) with a person diagnosed with COVID-19 to stay home and [self-monitor for symptoms](#), and to follow [CDC guidance](#) if symptoms develop.
