

Hello,

I am Katie Fritche. I have 2 kiddos currently in hockey, 1 is in his third year and is a C Mite and the other is in her second year and is a Termite.

I have always been open to volunteering and helping out where needed with the organization. I am managing the C Mite year this year and also managed D mites last year. Even though my children have only been with the organization for a few years I have started to build great relationships with other parents.

I am wanting to pursue a board position as I think it would help to give me a better understanding of the organization. I also feel I would bring good input from the parents as I am frequently talking with them and hearing about good/poor things within the organization.

A little about myself:

I work fulltime as an RN manager for a Hospice company.

I have lived in the Cambridge area since 2010, I grew up in St. Francis. My husband grew up in Cambridge and that is why we decided to live here.

Hobbies: Fishing (summer only 😊) and four wheeling.
