## GREETINGS DIRECTORS AND COACHES-

There are many questions surrounding the MSHSL decision to move girls high school volleyball to the spring and the impact that will have on the boys high school volleyball season. We wish we had answers for you today, but unfortunately we don't.

We do know this decision directly impacts the ability to run the boys season this spring. We also know it would be a burden on all resources to try to run the two seasons simultaneously.

We will not be able to determine the boys high school season until all of the details are in place for the girls season and other MSHSL spring & summer sports. We ask for your patience to give the leaders of our sport time to figure out what will make the most sense.

We are so thankful for all of you. WE appreciate your passion and dedication to continue the fight to provide opportunities for boys to play high school volleyball.

The MN Boys High School League is dedicated to making a SAFE high school league work as long as COVID-19 and our high school admins provide us the opportunity to do so.

We are resilient and will continue to be diligent in figuring out how to run a boys high school league to compete in spring/summer of 2021!

In the meantime, there are many opportunities for individual players and teams to play this fall. Check our website for camps & clinics.
