# Images & Text

This is an example of using images and minimal text in your presentation

**Subtitle – Century Gothic Bold 29pt**

Century Gothic 24pt

**Project 2**

Mobile social media refers to the combination of mobile devices and social media this is a group of mobile marketing

# Text & Images

Mobile social media refers to the combination of mobile devices and social media. This is a group of mobile marketing applications that allow the creation and exchange of user-generated content. Due to the fact that mobile social media run on mobile devices, they differ from traditional social media by incorporating new factors such as the current location of the user or the time delay between sending and receiving messages

This slide example allows for title and text at the top, and a large space at the bottom for an image, video, graph, table etc. to be inserted

# Text in One Column

Mobile social media refers to the combination of mobile devices and social media. This is a group of mobile marketing applications that allow the creation and exchange of user-generated content. Due to the fact that mobile social media run on mobile devices, they differ from traditional social media by incorporating new factors such as the current location of the user or the time delay between sending and receiving messages. According to Andreas Kaplan, mobile social media applications can be differentiated among four types group of mobile marketing applications that allow the creation and exchange of user-generated content.
