School Team Recognition Day

Schools are encouraged to set aside time during the week to acknowledge the Coaches, Officials, Student Athletes, and Supporters who contribute to the success of High School Sport in their community. An important aspect is to recognize that High School Sport is an extension of the classroom and provides an opportunity for developing citizenship skills and contributes to the education of leadership, teamwork, healthy lifestyles, motor skills, sportsmanship, ethics, and integrity.

History:

National High School Activities Week was initiated in 1980 by the National Federation of State High School Associations (NFHS) as a means to promote the value of interscholastic activities. The NFHS now promotes National High School Activities Month and includes a number of other activities in addition to high school sport in the list of activities organized by the NFHS such as music, drama, band, etc.

School Sport Canada has encouraged its provincial organizations to make schools across the country aware of the initiative. Each year the SHSAA asks the Government of Saskatchewan to declare one week in October to be 'School Sport Week in Saskatchewan'. As mentioned above, the week of October 7 -13, 2018 will be the designated week.

Key Messages to promote in your school and community:
