Dear youth basketball players and parents,

You may know me from coaching the (rising 8th grade) boys in-town basketball the last few years, or from reffing many in-town games for the younger group. I'd like to work with a few young basketball players this summer to help them improve their shooting skills and ball handling. Below is a little bit about my basketball journey.

In 5th grade I played on the Medfield "B" team. After working hard and playing AAU ball, I managed to make the "A" team in 6th grade. In my summer after 6th grade I took shooting lessons, and I was able to change my form to increase both my accuracy and my range. In 7th grade I became the top 3-point shooter on the team. Over the years, I have continued to work hard on my shooting and scoring techniques. It allowed me this past year to lead the varsity team in 3-point shooting, breaking a school record. I am the team captain for the 20-21 season.

I'd like to help some Medfield boys this summer re-make or fine-tune their own shooting form, so that they can improve their game and achieve more success on the basketball court. More details, along with contact information can be found in the attached flyer, and on my website. Feel free to reach out if you have a basketball player that would be interested in private instruction.

Thanks!

Reis Hanna
