

CAA Softball Commitment Policy

The CAA Diamond Sports Commitment Policy is intended to provide a clear understanding of the expectations for participating in the Chanhassen Athletic Association Softball season.

Travel Teams (10U – 14U)

Participation in the CAA Diamond Sports metro/tournament Softball requires a high level of commitment to be successful. Players participating in these programs are acknowledging that Softball will be top priority during the season (April – July) and will come first when a scheduling conflict with other activities arises. This is consistent with the commitment that is asked of participants in other CAA travel sports participants (baseball, basketball, etc.).

Travel Softball participants are expected to attend all scheduled team activities (practices, games, and team events). Absences due to injury, illness, death in the family, family events (e.g. weddings, graduations), school arts & academic activities, and faith-based events are acceptable absences. If a player will miss a team activity due to an acceptable absence, the player must communicate this to the coaching staff as soon as possible.

Discipline

Players missing team activities for an unexcused absence, including participating in other Softball or athletic activities, are subject to disciplinary action. The first offense may result in the coach sitting the player for part of or the entire game. Additional absences will result in a review with the coach, player, family, and CAA Softball Operating Committee to determine appropriate action up to and including suspension.
