

Watertown Hockey Association,

It has come to my attention that during the last varsity boy's hockey game, someone disposed of their empty beer cans into the back of a players' vehicle. First and foremost, we need to look out for our players and their safety. I have contacted the Watertown Police Department regarding this matter. They have advised me to send out a letter to the hockey association and if further incidents occur they will begin patrolling the parking lot. With that being said, I am asking for everyone's help in monitoring and reporting any incidents such as the one stated above to myself or another board member. Thank you all for your cooperation in this matter.

Sincerely,

Bruce Rieffenberger
WHA President
