2021 Sailing Program

In 2021, there will be a wide variety of options for all ages and skill levels. Check out www.okauchesailing.org to get all the details. Coaches are US Sailing trained and interested in making sailing safe and a great overall experience.

This year's program is expanded and has many new variations.

For Any Waukesha County Middle or High School Student !!

420: For the summer, the OLSS fleet of 6 420's are reconfigured for spinnaker and trapeze sailing. These classes accommodate sailors of all skill levels. Sessions begin in the evening on June 21. The 6 OLSS 420's may also be chartered by students for regattas. Our double and triple decked trailers make transportation easy. 420 classes and competitions are real social events. Check out the website.

For the Less experienced

KinderPram: These familiarization sessions are designed for young sailors aged 4 – 6. Young sailors get on the water with their adult companion in highly supervised non threatening conditions. Classes are held evenings starting July 26. Its designed for fun.

Learn to Sail – Youth: Unsure where to start? Sign up for the “Learn 2 Sail” clinics June 14 – 16 and also July 26 – 28. . Our US Sailing Certified instructors will introduce material in a classroom setting before heading out to spend time on the water. While on the water, sailors will receive group and one-on-one coaching to gain confidence on the water. As the class learns together the instructors may introduce adventure sails. Follow up classes are scheduled to allow those interested to continue learning thru the summer.

Adult Lessons: Again this year, the OLSS will be offering hands on sessions for adults who wish to familiarize themselves with the sport. Includes sailing with experienced sailors.

For the More experienced

X boats: Lessons held for 8-16 year olds. Lessons run throughout the summer, beginning on June 14. Our sailors look forward to a larger fleet, great on lake competition and key regattas being run locally. The OLSS has competitive X boats available for interested sailors.

IOD's: Lessons held for 7 thru 12 year olds. Lessons run throughout the summer will be held for experienced or novice sailors (starts June 23). Coaches will attend regattas with sailors. The OLSS has seven IOD's for use in class and races.

Adult Mentoring: In 2021, the OLSS will again leverage the skills of our top local competitors to assist local adult sailors wishing to enhance their competitive skills. The approach will be for more skilled sailors to engage in mentoring with their understudies. There are also numerous formal presentations usually held in conjunction with OLYC social events.

Open to All Children Regardless of Race, Color, National Origin, Religion or Sex
