

RE: Instant Messaging app for ALL participants

Back Bay Aquatics Foundation uses an instant messaging app called GroupMe.

Please download the [free app](#) on your smart phone-

You will be invited to join the group associated with your athlete. We typically name them by their competition age group-

In order to be added, please email backbaywaterpolo@gmail.com with your preferred phone numbers (#'s) where you would like communication sent.

- Please keep the communication string to the parents only. (No children)
- Please use the **direct message** option when asking questions to our coaches regarding practice or game information. From the groups communication screen, swipe left to find the member you would like to direct message.

We do not like to overpopulate the platform. Our policy is to leave this communication string for announcements, including but not limited to:

- coach's messages
- pertinent team information from an assigned team parent
- team administrators that would be making last minute practice announcements.

Please feel free to always reach out directly to club administrators or coaches with any questions or concerns through direct group me chat or email at:

backbaywaterpolo@gmail.com.
