Once again, Campeche brings into the international scene its ability to organise and host an event meeting the highest standards. Campeche’s scenery, its nature and its people are home to IRONMAN 70.3, a sporting event that has grown both, in numbers and prestige, year after year.

It is our turn now, as proud inheritors of the Mayan culture, of our historic and natural heritage, of our identity as the people of Campeche, to welcome again the hundreds of triathletes to this third IRONMAN 70.3 edition. We are thrilled about the excellent coordination with the organising committee, which anticipates not only the success of this event but a growing interest for Campeche as a destiny for sport tourism.

But what excites us the most is to share in our city, in our state, a world class event. Our biggest satisfaction will be to know that each athlete, each guest, had a wonderful stay in Campeche.

Welcome and we hope you enjoy the famous hospitality of the people of Campeche.

Lic. Alejandro Moreno Cárdenas.
Campeche State Governor

It is a great honour for me to welcome each and every athlete, coach and work team to this great event. We are very proud to be the hosts of such an important sporting event for the third time and we welcome you with open arms.

In the City of Campeche, you may enjoy the colonial old town (Centro Histórico), which is surrounded by walls and bastions built more than 400 years ago to protect the city from foreign attackers. You may also stroll in the beautiful “Malecón” that offers awesome sunsets every afternoon.

The courses for each discipline have been carefully chosen to offer the athletes a great experience, bearing in mind the challenge of finishing a 70.3 IRONMAN.

It is our commitment to look after our city and the event. We encourage you to do your best and we look forward to forming a strong friendship bond by being part of this great competition that takes place today in the Gulf of Mexico in the State of Campeche.

Greetings and my most sincere welcome to all of you, IRONMAN athletes.

Arq. Jorge Carlos Hurtado Montero
Sport Institute of Campeche Director

Welcome to the state of Campeche, home of a rich Pre Hispanic culture and incomparable natural resources and today, the proud host for the second consecutive year of IRONMAN 70.3 Campeche.

Amongst our many tourist attractions you may find old haciendas lost in time, jungle landscapes, beaches, Mayan archaeological sites, old churches and a wonderful and varied cuisine to impress even the most strict gourmet connoisseur.

Don't forget to visit our historic centre where you will find a beautiful example of colonial architecture inside a fortified city that has been recognised by UNESCO as World Heritage site.

All this and more is Campeche; we thank you for giving us the chance to be your hosts and greet you with the kindness that defines our people. We are certain that this will be a great and unforgettable experience.

Make yourselves at home. Welcome.

Lic. Jorge Manos Esparragosa
Minister of Tourism of the State of Campeche
IRONMAN 70.3 Campeche will operate under the “three strikes and you’re out” principle. Even though DRAFTING is the only violation to incur a time penalty (to be served in the nearest penalty box at various spots on the bike course), every bike course violation requires a stop in the penalty tent. Drafting penalties require a 5-minute stop; all other violations require 1 minute penalty.

ONLY BLUE card violations will count toward your three strikes— three blue card violations result in a Disqualification (DQ).

To maximize your understanding of the rules on race day, please take the time to read the following summary of Position Violations.

- Always ride on the right side of your lane to avoid an illegal position or blocking call.
- Age Group and Elite athletes must keep six bike lengths (12 meters) between your bike’s front wheel and the front wheel of the cyclist in front of you to avoid a DRAFTING call.
- Always pass on the lefthand side of the cyclist in front of you, never on the righthand side, to avoid an illegal passing call.
- Age Group and Elite athletes must complete your pass within 25 seconds to avoid a blocking call.
- If you are passed, drop back six bike lengths before attempting to re-pass, to avoid an overtaken or DRAFTING call.

Triathlon is an individual event, and it is your responsibility to fully understand the rules and avoid penalties. In the case of Position Violations, the referee’s ruling is final and is not open to protests or appeals.

The following are several other common rule violations:

PROGRAMA ALL WORLD ATHLETE (AWA)
The IRONMAN All World Athlete program is our way of rewarding age-group athletes’ hard work, dedication, and performance across IRONMAN and IRONMAN 70.3 racing.
The program uses the IRONMAN Age Group Ranking system to determine which athletes have finished within the top 10 percent or better in their age group each calendar year. This system allows athletes to generate points based on their finish time behind the first official finisher in their age group. Athletes accumulate points for each race they complete. On December 31st, only the top three performances will count toward an athletes’ All World Athlete status. This makes it easy for athletes to improve their ranking by simply racing more with IRONMAN.

Congratulations on becoming a 2019 Gold All World Athlete!
As an IRONMAN All World Athlete, you’ll enjoy a host of benefits at many of your 2019 races*, including priority access to athlete registration, as well as special recognition of your accomplishments on your race bib and swim cap, and in the race program. A complete list of benefits will be posted along with all AWA program information on this website within the next few weeks.

An open-water swim in a triathlon is substantially different from swimming in a pool. To alleviate stress, it’s important that you arrive on race day healthy, fit and prepared. Here’s a top-10 checklist to help get you ready.

1. PREPARE FOR RACE CONDITIONS
   - Race day should not be your first open water swim. Make sure some of your training replicates real race conditions, including water temperature, proximity to other swimmers and wearing a wetsuit if needed.

2. RACE IN SHORTER EVENTS
   - Being properly trained is the best way to reduce anxiety. If possible, race in shorter events and clinics to prepare yourself for open water conditions.
   - For extra guidance, talk to a coach or your local triathlon club.

3. LEARN ABOUT COURSE DETAILS
   - It’s important to prepare yourself mentally as well as physically prior to race day. Thoroughly review the race website and pre-race communication to familiarize yourself with the course.
   - Keep in mind, every body of water is different, so you’ll need to educate yourself on water current and surf conditions.
   - Study the event timetable to plan for proper arrival and preparation.

4. ENSURE HEART HEALTH
   - As an athlete in training, you should take the proper steps to assess your health with your physician.
   - The American Heart Association suggests a 12-step screening process for competitive athletes. This includes a physical exam as well as an assessment of your family history and personal heart health.

5. PAY ATTENTION TO WARNING SIGNS
   - If you experience chest pain or discomfort, shortness of breath, light-headedness or blacking out while training, consult your doctor.

6. DON’T USE NEW GEAR ON RACE DAY
   - Focus on controlling as much as you can on race day.
   - You should never race in equipment you haven’t trained in this is not the time to test new gear.
   - Make sure your wetsuit fits properly and that your goggles, swim cap and other accessories work properly.
   - Prepare for the unexpected with backups of all your gear.

7. WARM UP ON RACE DAY
   - Arrive early enough on race day for a proper warm up prior to the start, preferably in the water.
   - If you aren’t able to warm up in the water, spend between 5 and 10 minutes getting loose.
   - Be sure to do some cardio activity, such as a light jog, to increase circulation and prep your muscles.

8. CHECK OUT THE COURSE
   - Get comfortable with the course by checking out water conditions, the swim entry, exit layouts, along with turn buoy locations.
   - Identify basic navigation points so that you know what you are swimming towards.

9. START EASY – RELAX AND BREATHE
   - Don’t race at maximum effort from the start.
   - Relax and focus on proper breathing technique as you settle into a sustainable pace.

10. BE ALERT AND ASK FOR HELP
    - In a race setting always stop at the first sign of a medical problem.
    - If you or a fellow athlete needs help, just raise your hand to alert a lifeguard or safety boat.
    - Race rules allow for competitors to stop or rest at any time during the swim.
    - Feel free to hold on to a static object like a raft, buoy, or dock.
    - You may also rest by holding on to a kayak, boat or even a paddle board. As long as you don’t use it to move forward, you won’t face disqualification.
BIKE COURSE

BIKE COURSE – 56 MILES (90 KM) (2 loop)

Athletes will exit T1 and head towards the Merida Highway to start the bike course. Turning to the right (bridge) to get into the Malecon Ave. and then the two-loop, 56-mile (90 km) bike course will take athletes up and back along the Malecon Ave. & Merida Highway before dismount. The 2019 Bike course will be 50% flat.

TECH TIPS & OTHER DETAILS

Bike inspection will not be provided at bike check-in, although technicians will be available. Athletes are ultimately responsible for their own bikes. However, race officials may, at their discretion, make final judgment as to the soundness of bikes.

Prior to mandatory bike check-in on Saturday, be sure your bar-end plugs are in place and you have no loose spokes, brakes, headsets, stripped cables, etc. Adjust the hubs and position handlebars correctly. Ensure that cables and tires are in good condition and sew-up tires are glued properly onto the rims. Securely fasten all equipment you may carry with you on race day.

To avoid an unexpected flat tire, wait until race morning to inflate your tires to their proper air pressure. There will be a limited number of pumps available in the transition area on race morning, thus we recommend you bring your own. You must give your pump to a family member or friend before race start, since pumps will not be stored with your pre-swim bags.

For security and safety reasons, bikes will not be allowed out of the transition area once bike check-in begins on Saturday. No one will be allowed to enter the bike compound unless accompanied by a race official.

On race day, bike tech vehicles will patrol the course to aid in emergency repairs, but it is the sole responsibility of every athlete to carry the necessary items to make their own repairs and continue with their race.

BIKE SHIPPING

TRI Bike Transport is the official service provider for IRONMAN 70.3 Campeche, only for this particular event the service will be NATIONAL (NOT INTERNATIONAL), for more information please check out their section in our site.

If you decide not to use a bike transport service, we recommend you travel with your bike as part of your luggage. Do not send your bike via any shipping service in order to avoid inconveniences with Mexican customs.

Most airlines recommend that you use the following procedures when shipping your bike:

Pack your bike as if you were shipping eggs. Do everything you can to ensure damage-free delivery. Boldly label your bike case with your name, address, etc., so it can be identified quickly. If you plan to arrive in Campeche immediately before the bike check in, you risk having your bike arrive after you do.

Plan ahead!

BIKE TECH SERVICES

The official bike shop and technical provider of the event will open their event store and tech service center at the expo & packet pick up, official host hotels and transition area. They will be staffed by expert bike technicians and stocked with great deals on a variety of merchandise (tires, tubes, CO2, and more).

Please look at the event official program for service dates and times.

During race day, bike tech services will be located at each bike aid station and a movil scooter tech between each aid station.

**LOCAL TRAFFIC LAWS**

Please remember that members of the local community use the bike course roads. You are an ambassador for the sport and IRONMAN 70.3 Campeche, the impact of your actions is far reaching. When you’re out riding the course, please adhere to local traffic laws and go the extra mile to be courteous and respectful to the residents of the local community.

When training, please follow these suggestions:

- Please ride single file. This is not just for your safety but also to ensure local drivers can get where they need to go without delay and frustration.
- Please obey traffic laws (stop at stop signs, signal when turning, etc.). Please do not use private property as a toilet. Please do not litter. Keep your energy bar and gel wrappers with you until you find a trash container.
- Please ask your friends and family members to refrain from painting the roads along the course. This defaces public property and is a punishable offense.
- Every time a cyclist has an altercation with a driver, that driver sees every cyclist on the road as the enemy. Every time a cyclist is courteous to a driver, that driver will give every cyclist on the road that much more respect and courtesy in return. Please think before you act.
Completing in a triathlon event requires training on a bike. To be fully prepared, it’s important that you arrive on event day healthy, fit, and equipped with the proper gear. Fitness can be built indoors, but competing with a group requires the ability to ride safely and competently outdoors. Read on for an essential checklist to get you ready for any two-wheeled challenge.

BEFORE YOU RIDE

1. IT STARTS WITH YOUR BIKE
   - Your seat and handlebars should be adjusted to the appropriate height and reach for you. Work with a fitter to find your optimal bike fit.
   - Ensure all bolts are tightened properly to avoid coming loose during the ride, and that your brakes and gears are working properly.
   - Keep your bike clean and your chain lubed.
   - Use front and rear lights when riding in low light conditions — this may be required by law in your area.
   - Tires should be inflated to the recommended pressure.

2. LEARN THE BASICS
   - Practice clipping in and out of your pedals, as well as starting, stopping, and emergency braking.
   - If you’re unfamiliar with shifting gears, practice doing this in a low-traffic area.
   - Practice riding a straight line, and cornering (right, left, U-turns).

3. SUIT UP
   - Always wear an approved helmet in training and racing. Helmets should fit properly without moving around on your head while riding, and remain buckled at all times during your ride.
   - Wear clothing that is designed to function in the weather you will encounter on the ride, and that will help maintain your core body temperature when riding in cold or wet conditions, even during a race.
   - Choose clothing that is visible in low-light conditions.

4. BE PREPARED TO RIDE
   - Carry the appropriate amount of water and nutrition, along with a way to purchase additional supplies if needed.
   - Know how to use a tire repair kit and appropriate tools, and be sure to carry them with you.

5. PLAN AHEAD
   - Select a route that limits the number interactions with vehicles — if possible factor in time of day and day of the week.
   - Always obey all traffic signals and signs.
   - Where available, ride in dedicated bike lanes and where other bikes are normally present to ensure vehicles are aware of you.
   - Select a ride distance appropriate to your fitness.

6. INFORM OTHERS
   - In the event of an incident, someone should know where you are riding.
   - Always carry personal identification with you and emergency contact information.
   - Carry a cell phone for emergencies.

DURING THE RIDE

7. STAY ALERT
   - Leave the playlists and podcasts for indoor workouts.
   - Don’t use your phone while riding – pull off the road if you need to make a call or send a text.
   - Don’t take photos and selfies while riding.
   - Keep your head up, particularly when riding in a group. Look at the road and the riders around you, not your bike computer.
   - Be able to see and hear what is going on around you. When riding in the aerobars, do not look down at the road, look ahead.
   - Be easy on the brakes when riding in a group. Ride smoothly, do not overlap wheels, and always come up the inside line of a peloton.
   - Pay particular attention when approaching aid stations during a race. Do not ride though aid stations in the aerobars.

8. OBEY THE LAW
   - Always stop at stop signs and lights—remember, cyclists have the same responsibilities as vehicles.
   - Know the traffic laws for your area, especially those regarding riding two abreast or single file.
   - Know where the vehicles are around you and anticipate that drivers may not see cyclists.
   - When passing a parked car or another cyclist, make sure there is enough space to avoid contact.

9. COMMUNICATE
   - Use verbal and hand signals so others know if you are stopping or turning.
   - Make eye contact with drivers and other cyclists.
   - While riding, let other athletes know you are passing through verbal communication. Watch for hazards in the road including potholes, debris, or water bottles. Point out and verbally communicate these hazards to those riding and racing with you.
   - Visually and verbally communicate with the specific volunteer in the aid station you will be taking aid from, letting them know you are taking aid directly from them.

10. SAFETY FIRST
    - Ride as far to the side of the road as safely possible. Some situations do require that you safely position yourself on the road so that traffic is unable to pass. This might be when making a turn or when not safe for vehicles to pass.
    - If riding with other people, make sure you are riding single file or allowing traffic to pass from behind you.
    - When riding in a group, avoid riding in the aerobars unless you are riding in front. Your hands should always be able to get to the brakes quickly.
    - Taking unnecessary risks might gain you a couple of seconds during your ride, but it could risk you losing your life. Always ride smart.

The medical aid station at the finish line will officially close 8 hours and 30 minutes after the swim start. All athletes seeking medical attention after that time will be referred to the local emergency room facilities. All medical expenses incurred are the sole responsibility of the athlete and not IRONMAN 70.3 Campeche.

Particular dangers include dehydration, hyponatremia, sunburn, exhaustion and injuries sustained from accidents. Please ask for medical help if you have the slightest hint you may need it. You will not be penalized for receiving a medical evaluation. You will be withdrawn from the race only if you require transportation, IV fluids or if medical personnel feel your continued participation could result in serious harm or death. During events of extreme endurance, the body’s pain threshold is raised, and you may be in more trouble than you realize. The medical personnel will do all they can to keep you in the race and assure a safe finish. Also, please be attentive when taking water, sports drinks or other supplies from volunteers when you’re on your bike to avoid an accident or injury to yourself or another.

Please trim your fingernails and toenails prior to the start of the race to avoid injury to other athletes. Be especially careful to rinse your goggles of any excess defogger solutions to avoid eye irritation.

If you spend three months prior to the event in a climate cooler than Campeche, we suggest you consider an acclimation period in Campeche before the race. The chance of dehydration and electrolyte imbalance can be reduced significantly by a proper period of acclimatization.

Stay with your familiar and proven routine regarding training, nutrition and equipment, especially just prior to the race. This also applies to pre-race dietary intake and medications. It is recommended you avoid an extreme elimination diet. Adequate salt intake during training and during the event is especially important.
If you are taking any medications, or have any medical problem that may influence your performance or your treatment in the event of an injury, advise us of all necessary details well in advance of race day. Failure to do so will result in suspension of participation in future IRONMAN events.

You are solely responsible for avoiding medications that appear on the list of banned substances as determined from WADA. Feedback from previous IRONMAN contestants indicates we can never over emphasize the importance of hydrating prior to and during the event. IRONMAN 70.3 Campeche’s Chief Physician recommends you begin hydrating heavily several days before the race and drink enough water so your urine is clear, colorless and copious by race day.

AID STATIONS

Bike:
There will be six (6) on-course aid stations (approx 7 miles between each other) (10 mi, 15.5 mi, 23 mi, 31 mi, 38 mi, 45 mi) to keep athletes well fueled during the bike leg.

Aid stations will supply you with Gatorade regular formula (lemon-lime and orange flavor) in ready-to-drink sport- top bottles, water, Bars, Fuel 2 Go (gel), ice, bananas and restrooms. Be sure to toss empty bike bottles and sports nutrition wrappers at the drop targets at each aid station. Water bottles will be exchanged at the aid stations. Individual bottles will not be returned to athletes.

Bike aid stations will close 5 hours and 30 minutes after the last age group athlete starts the swim (Rolling Start).

To avoid risk, please reduce your speed in order to use bike aid station. If your speed is high, you won’t be able to take items from each aid station.

Half Marathon:
On the run course, aid stations will be located approximately every kilometer and will offer Gatorade regular formula (lemon-lime and orange flavor), water, Pepsi, Bars, Fuel 2 Go (gel), ice, oranges, bananas, pretzels and mosquito repellent.

There will be portable toilets at each of the aid stations on the bike and run course.

Fuel2Go is the energy you need to perform at your best in your physical activity, as it features the newest technology in foods based on scientific studies relating to sports nutrition. It has been shown that during moderate intensity exercise or intermittent exercise lasting longer than 1 hour, consuming 30-60 g of carbohydrates has great benefits as it reduces fatigue and improves physical performance.

Fuel2Go contains 25.4 g of carbohydrates so it is recommended to be consumed 15 minutes before starting physical activity and every 30 minutes, this in order to consume about 50 g per hour. Furthermore, scientific studies show that there may be up to 65% more oxidation and better utilization when using mixtures of carbohydrates. Such is the case of Fuel2go, which is made from a mixture of maltodextrin, fructose and isomaltulose.

Fuel2Go contains sodium and potassium, electrolytes that are lost in greater proportion when sweating. It also contains 25mg of caffeine, which has beneficial effects in terms of energy optimization and perception of personal burnout.

RECOVERY ZONE

After crossing the finish line, all athletes will receive an official medal and a finisher long sleeve shirt, athletes must keep walking into the tent area to receive Gatorade, water, ice, fruit, pizza, Pepsi, pools and rest area. The Race Organizers will offer complimentary 10-minute post-race massages outside the recovery zone.
