

Dear MAHA Families,

I am writing to notify you of my interest in a Director position for the MAHA Board. I have had two kiddos in the program since 2020 and each year I have become more involved and more in love as the years have progressed.

I work for NCSS in the school system, as a Behavior Interventionist, and love being able to watch kids learn how to take challenging moments and work hard to turn them into rewarding memories and life changing skills. There have been many things about our MAHA program that has helped me and my family learn some of these same qualities and it truly feels like a giant family here. Which is why I would love to see that grow even more!

I am a HUGE advocate for kids and want to be a part of making sure all kids have a fair, FUN, and affordable chance at playing such a team building and relationship growing sport! Kids always come first and I truly believe we all need to have this mind set and do what we can to keep their love for the sport alive.

I do have some experience with being on a board as I was on NWLL board for 1.5 years, choosing to leave as my kids both gave up softball/baseball and began spring league hockey so my time became more devoted to hockey. I stayed on as an honorary member in case they needed some help, but they seem to be doing amazing! That being said, I would love to devote my time to an organization that my kids hold near and dear and would love to help keep growing our organization.

I hope you will consider my interest in running as a Board Director.

Thank you,

Jordan Juairé
