

## A note from our Director

Greetings TBA Parents & Families,

As we kick off the summer, I would like to express that we value the importance of continued learning, especially throughout the summer. Here at TBA, we offer a school based curriculum centered around reading, spelling, writing, and math for all campers. Our daily schedule will have allotted time slots for each subject. Learning material will be provided. We promise to make the learning experience fun for all! It doesn't always have to be just pencil & paper. Sometimes we learn best through activities & excursions that keep us engage. Our lives & learning have been hindered for over a year and it's time to get back to some sort of normalcy. To ensure no child is lacking entering 2021/22 school year we keep the learning process going throughout the summer. Thank you for being the BEST part of TBA and for your continued support.

Ms. S
