

The MN Comets organization again wants to assure you that we take the health, safety and well being of our players, event participants, attendees, and workers very seriously.

Having said that, the MN Comets organization will be suspending the season until Monday, April 13, 2020. Here's what that means for the MN Comets:

- Tryouts will NOT occur on March 17 or 22. New tryout dates are tentatively set for Tuesday, April 14 and Thursday, April 16.
- The MN Comets Shootout has been canceled. Refunds minus the processing fee will be sent back next week.
- Open gyms and practices have been suspended until April 13.

We will continue to accept player registrations; however, we ask that you select the pay offline option until more information becomes available.

The MN Comets will continue to monitor developments, re-evaluate our policies and systems as circumstances change, and communicate any changes to our players and teams. Please be assured our focus is on health and safety.
