

CANCELLATION/REFUND POLICY

- The race organizers can cancel the event due to unsafe weather. Race organizers will make the best decisions when it comes to protecting the safety of all runners. This means we reserve the right to adjust, cancel, reroute, OR reschedule as we see fit.
- Because the bulk of our costs come before the event even occurs we will not be able to extend refunds to those who wish to cancel their registration. In the case of us canceling the event we will assess things appropriately and fairly.
- Racers can change their chosen race distance at no charge until July 30th 2018. If you decide to run a longer (and more expensive) distance, you will be required to pay the difference. However, no refunds will be given if you choose to drop to a shorter (and less expensive) distance. No changes are allowed after July 30th, 2018.
- Race registration is non-transferable and cannot be rolled over to subsequent years, unless extenuating medical or life circumstances occur. However, we understand life can get in the way of racing. As such we are happy to offer a \$50 credit for the 30k and 50k towards the following year until July 15th, 2018. **There is no roll-over option after July 15th . There is no roll-over option for the 15k.**
- We REQUIRE that you withdraw from the race on Ultrasignup.
