Custom Headwear

All of our caps and beanies are custom made to suit the best trend in your market. Whether that's flat bill, sports caps, dad hats, or traditional cotton twill for caps or knit patterns, slouchy styles, and with and without poms for beanies - we can fully customize it to fit your branding preferences.

Full customization also opens up creative possibilities with sponsors and co-branding. We use 3D embroidery, custom patches, woven labels, underprint, and more to ensure that the headwear is seen long after the giveaway.

Regular Tee vs. Custom Tee

If you're looking to incorporate a tee into your 2019 giveaway schedule, let's talk!

Economical domestic tees don't have to be standard. We're able to incorporate them into whiteouts, blackouts, and other themes as well as integrate special inks, tags, and more to elevate it from a simple one-time throwaway budget tee. If you have a partner that wants to support the night, we're able to create fully custom patterns, like the camouflage example above, that marries the theme, partner, branding, and event to create a truly unique tee giveaway and ticket driver.
