Members,

Re: Return to Play Guidelines, Safety Protocols & Contact Tracing

As we approach the upcoming 2021 season there are still many unknowns in regards to what the season may look like for many of the divisions. Most is dependent on Province of BC Ministry of Health announcements and updates.

One thing that we are aware of is that many local communities still may require updates to your "Return to Play" guidelines and safety protocols along with contact tracing for each event in regards to your programming.

We ask that each association due their due diligence in regards to keeping open communication with your local government regarding their safety guidelines, protocols and contact tracing that may need to be updated since the 2020 season ended.

As a friendly reminder, all Association "Return to Play" (RTP) plans and safety measures must be posted on your website for access by your members as by Baseball BC guidelines.

Any questions please do not hesitate to ask.

Thanks, John

John Braaten
