We want players with a burning desire to practice and compete at the highest levels. If you are interested in trying out for one of our teams (3rd grade thru 8th grade) in the spring, then this program will give you a great opportunity to get to know the coaches and other players currently involved in the program. Or maybe, you just want to work really hard to improve... that's fine also.

**By Whom:** Our coaches are experienced & dedicated and most are involved with local HS programs. There will also be guest speakers who have coached or played at the collegiate level.

**How:** We teach fundamentals, fundamentals, fundamentals!!! We stress skill development thru perfect practice. We will show you proper techniques and give you feedback on how these skills will develop your set of game skills. Everything needs to transfer over to the game!!

*"Coach, I wanted to say thank you for all that you have done to help Ali and all the girls this past season. I was very impressed with every aspect of the Fever program and saw a lot of growth in Ali from the time she began working with you"*

*"From the first practice we were blown away by the level of coaching that my daughter and the team received. I don't think they would have received this type of instruction and skill development anywhere else outside of a high level college program."*
