

Wednesday, November 18th

Parents,

Here in Illinois, we have sat back and watched the case numbers multiply throughout our cities. Although we have many safety precautions and policies in place, we feel as though we must follow the Tier 3 mitigations and discontinue regular scheduled gymnastics classes effective Friday, November 20th. We will return to recreational gymnastics when the state allows us to do so.

Premier West will not charge recreational families during the time off and your account will be put on hold reserving your current class day and time. Your child will be given make-up classes for any classes missed in November and **you will not be charged for December unless we are able to return.**

Once we are given the go ahead you will be notified that we are resuming our class schedule. You will then have 48 hours before your credit card on file is charged for tuition confirming your previous class time. If you are not interested in continuing at that time, you have the 48 hours to email us and let us know you have decided to stop.

We will be offering private lessons during this closure as is allowed under Phase 4, Tier 3 Mitigations. Please be on the lookout for more information. We will send an email once we have a plan in place.

This year has been devastating to small businesses, but we are confident we will get through this second closure. We want to thank everyone for their continued support, and we hope all families at Premier West stay safe and healthy during this pandemic.

Paul and Jenny Evatt
Premier Gymnastics West
