RE: NPL Field Setup

**NPL Matches - Arbolado Soccer Fields #1 & #2 Setup**

NPL field setup includes EZ Ups for both teams and team benches.  
No need to provide water for the opponent.

**Logistics:** Corner flags are in the NPL knock box. There are two sets of benches and EZ Ups in the knockbox.. The NPL team that is first scheduled per field sets up. Last NPL team scheduled takes down equipment and returns equipment to knock box and secures goals..

**NPL Matches - Heather Farm Field #1 Setup**

NPL field setup includes EZ Ups for both teams and team benches.  
No need to provide water for the opponent.

**Logistics:** Corner flags are in the knock box. There are two sets of benches and EZ Ups at the Club's office. The NPL team that is first scheduled picks up equipment and sets up. Last NPL team scheduled takes down equipment and returns to the club office the same day.

**NPL Matches - Carondelet Athletic Complex Setup**

Team benches include overhead protection. We do not have an option for EZ Up but the Quickgoal team bench meets standards of NPL requirements.  
No need to provide water for the opponent.

**Logistics:** Goals are staged behind team benches during the spring season. Corner flags are in the 3rd base dugout. The First team scheduled will need to set up the field. Last team scheduled will need to move goals back behind the team benches and return corner flags to the 3rd base dugout.

**NPL Matches - Northgate Setup**

NPL field setup includes EZ Ups for both teams and team benches.  
No need to provide water for the opponent.

**Logistics:** Northgate has team benches and usually on fence line (red). Club's corner flags are stored underneath bleachers in a secured rubbermaid storage unit (middle of storage area). First team scheduled for matches at Northgate picks up, sets up field - last team scheduled cleans up and returns key to club office same day.

**Pre-NPL Matches - Heather Farm Field #2 Setup**

Pre-NPL field setup includes EZ Ups for both teams and team benches.  
No need to provide water for the opponent.

**Logistics:** There should be two EZ Ups and benches next to the knock box at the field.
