# "Team Connect" Website and Phone App Guide

Stack Sports has a feature called "Team Connect" which can be accessed either via a website or an app on your mobile device. *Please note that at this time we have not been able to assess if this app is useful or "buggy". It did give us some issues on testing in locking up and not allowing editing of player profiles. So this may or may not prove useful to managers/teams/parents for the season*
Features available in Team Connect:
1.    View team roster
2.    Families can customize their player's profile – this includes deleting and re-uploading the player photo (on the app only)!
3.    Team Calendar
4.    Photo and document sharing
5.    Receive team emails, texts and announcements
You will be receiving an email entitled "Team Connect Invitation from United Soccer Club".
Just click on the link in the email to accept the invitation to join Team Connect for your team(s).

**There are two ways you can access Team Connect:**

1.    Log into your Stack Sports member account and click on the "Team Page" link to access the Team Connect website. (once you have received the email your player has been rostered).

2.    Download the app and login using the same username and password you use to log into your Stack Sports member account.
            A:  Download and login using app
                    Download the Sports Team Connect app
                    Login using your Stack Sports email address and password
                    Once logged in, you will see your team(s). Select the team to continue.
                    To edit your player's profile, go to the Roster and select your child's name. Click on the 3
                    dots at the top right.
                    Select "Edit Profile".

The next screen will allow you to delete and upload photos, add a parent and change your profile information.
