

A letter to the membership of Stony Plain Minor Hockey Association:

In preparation for 2019-2020 hockey season, the executive of the Stony Plain Minor Hockey Association has reviewed its overall operations and made several recommendations to effectively meet the evolving needs of our players, coaches, parents, volunteers, and hockey community. As part of this planning process, the executive has recognized the diversity of its operations and has elected to make immediate changes to its administrative structure to complement this diversity.

This new direction includes filling the following compensated administrative positions for the upcoming 2019-2020 hockey season:

- Player Registration Coordinator
- Ice Scheduler
- Referee Scheduling Coordinator
- Concession Manager

Our membership can expect to receive more information about the development of these positions as it becomes available, either through email or by visiting the SPMHA website.

During this time of transition, we kindly remind our membership that executive positions are held by dedicated volunteers and kindly ask for your patience. We realize that the implementation of these administrative changes may include some operational disruption, but we are also confident that this transition will be short-term.

The SPMHA and its executive remain committed to fostering and promoting minor hockey in this community. We thank you in advance for your cooperation and ask that any questions regarding this transition be directed to: policydir@smpha.net
