

PLAYER TRACKER SHEET

This Player Tracker Sheet is to be used by parents to track their son/ daughter during the game. The following activities will be tracked. Parents will circle the number each time their player engages in an activity.

Transitions – Transitions are defined as any time your player changes direction. This includes stops and starts, tight turns and going from forwards to backwards or backwards to forwards.

Passes made – Defined as when your player attempts to pass the puck to a team mate. Pass can be tape to tape, indirect or area.

Passes received – Defined as when your player gains control of the puck from a team mate passing it to them.

Shots – Defined as when your player puts the puck on net.
