

With your support and the help of our amazing volunteers, we were able to teach 488 kids how to ice skate in this year's Greg Carroll Learn 2 Skate Program!

8 weeks of  
Learn 2 Skate

Opening doors to  
hockey in Minneapolis,  
St. Paul & Brooklyn Park

## Thank You Volunteers!

The Greg Carroll Learn 2 Skate program helped teach 488 kids how to skate!

The Greg Carroll Learn to Skate program has been a cherished tradition since I was in first grade. DinoMights partners with elementary schools across Minneapolis and St. Paul to introduce first graders to the joy of skating. I still remember my own Learn to Skate experience like it was yesterday. I felt scared, nervous, and excited all at once.

The program provides students from under served communities with a supportive environment where they begin to embody the four core values of DinoMights: physical, academic, social, and spiritual excellence. Just recently, I found the booklet I created during my Learn to Skate journey, and it reminded me how far I've come. Now, as a high school senior, I'm proud to be one of the coaches on the ice, helping a new generation of kids discover the incredible world of hockey.

Greg Carroll Learn to Skate wouldn't be possible without the dedication of our amazing volunteers, who truly live out the mission of DinoMights. Thanks to the many sponsors that made this possible. It

all starts with you, and we couldn't offer such an impactful program for the kids without your support.
