Indiana National Development Regional Training Center (IND-RTC) Director:

First off, I want to thank all of the host sites that continue to provide opportunities for the wrestlers in Indiana to learn and grow their freestyle and greco knowledge and abilities. More specifically: Avon RTC, Mooresville RTC and Whiteland Girls RTC have done a great job with communicating with clinicians and providing them with the curriculum and vision of the ISWA as we continue to improve the practice plans to become more unified as a state. I also want to thank Olympic Styles Director, State Coach Danny Struck, Vice Chair Jim Tonte and State Chair Pat Culp for their leadership this past year.

My goal will continue to be getting IND-RTC sites working all on the same plan through the IND-RTC season so our wrestlers are getting the best technique/training no matter what site they visit! This will help coaches plan their practices and develop the same technique terminology throughout the state. With the Freestyle/Greco season not having as many opportunities, I am looking forward to helping these IND-RTC sites this coming year so Indiana can grow and become one of the top states at the national tournaments! We had one of the best years at 16u and Junior National Championships in Indiana History! This national tournament was wrestled in Fargo, North Dakota. In the 16u division, we had a National Champion. Congratulations to Peyton Hornsby of Center Grove High School on a great tournament. Peyton navigated a massive bracket and finished at the top of the podium. We also had 2 finalists from Crown Point High School: Caesar Salas and Clinton Shephard as well as multiple All-Americans. These coaches and wrestlers continue to make Indiana proud. We look to compound on these successes and continue to provide sites for wrestlers to work with high level coaches and athletes.

Thank you again to all of the athletes, parents, coaches, officials, volunteers, fans, and to the ISWA for this opportunity and I look forward to continuing the work in conjunction to help Indiana maximize our potential next season!

Josh Curry  
ISWA IND-RTC Director
