

PLAYERS

Philosophy

- ✓ We want our players to feel like being a part of the football program has helped them grow as a person and an athlete.
- ✓ We want to develop players into better athletes, students, and people.
- ✓ We will work with anyone who wants to do everything necessary to succeed.
- ✓ We want to hold our players accountable while also showing them we care about them.
- ✓ We want to use our program to develop players in football, leadership, character, and academics.
- ✓ We want to use all possible resources to help our players while they are on the team and after their graduation.

The Team Rules

Do the Right Thing!

Be Dependable!

When faced with a decision, a player should ask:

- Is this going to help me graduate?
- Is this going to help me be a better football player?

All players should know the answers to:

- Why do you play?
- What does this team mean to you?
