

Thank you for considering supporting our program development of women in the sport of wrestling. Wrestling teaches young kids about confidence, leadership, endurance, teamwork. These are just a few of the life skills we hope to prepare young women for.

Not only are we seeking local sponsors and supporters of women's wrestling but we are also hoping to grow a mentoring opportunity with our wrestlers and women in the community. Women Empowering Women Sponsorship are ways to help financially fill needs of growing a culture of wrestling at Franklin but we also wish to connect women who will encourage a young girl embarking in this new endeavor. It's tough and she may need you to cheer her on!

This 2024.2025 wrestling season is the inaugural year for women's high school wrestling. It is the fastest growing women's high school sport EVER! It is an official IHSAA Sport and will provide more opportunities for young women. More female athletes to compete with, but most importantly MORE COLLEGE SCHOLARSHIP!

Now is the time to get young girls on the mat. This will take funds for mats, uniforms, wrestling equipment like scales, hygiene products! The support our schools are providing is awesome. We are grateful for our athletic departments. With fan base numbers growing this will begin to revenue funds for school, but right now the girls want it and they want what the boys have now!

I would like to talk to you further in planting a seed with the development of women's wrestling at Franklin Community! We are committed to developing a culture of wrestling for both boys and girls. Our club begins at 5 years old up to 12th graders. We are partnering with the middle school to ensure Franklin is ready for the BOOM OF WOMEN'S TEAM!
